

Jill Bartruff
Senior Director, Medical Writing and Publications

Jill Bartruff is a Senior Director of Medical Writing and Publications at Advyzom. Jill has over 25 years of experience in the pharmaceutical industry with over 20 years of medical writing and preparation of clinical documentation for regulatory submissions across various therapeutic areas. Jill is responsible for leading team members in authoring and providing high quality documents for electronic submissions to health authorities.

Prior to joining Advyzom, Jill was President of Bartruff Medical Writers, Inc. where she managed and wrote documents for NDA and MAA submissions for 15 years for the pharmaceutical industry. Documents included Phase 1 through 4 clinical study reports, Phase 1 through 4 protocols and amendments, integrated summaries of safety and efficacy, clinical trial registry summaries, 120-Day Safety Updates, Investigator's Brochures, safety narratives, and informed consent forms. She has written submission documents in the following diseases/disorders: asthma, bipolar disorder, cancer (breast, colorectal, prostate), chronic obstructive pulmonary disease, coronary heart disease, Crohn's disease, diabetes, epilepsy, human immunodeficiency virus, hypercholesterolemia, liver fibrosis, major depressive disorder, migraine, mood disorders, opioid dependence, osteoarthritis, overactive bladder, painful diabetic neuropathy, Parkinson's disease, respiratory syncytial virus, restless legs syndrome, rheumatoid arthritis, schizophrenia, short bowel syndrome, sternal wound infections, systemic sclerosis, and therapeutic agents in Medical Foods. She was a Manager of Clinical Submissions at Glaxo SmithKline wherein she prepared clinical documents for international submissions for 6 years. At Burroughs Wellcome, Jill was a member of the Department of Cardiovascular/Critical Care Clinical Research wherein she monitored clinical studies in the acute respiratory distress syndrome, cystic fibrosis, and septic shock disease areas for 4 years.

Jill holds a Bachelor of Science in Secondary Science Education and a Master of Science in Public Health, Epidemiology and Biostatistics from the University of South Florida.
