

La Puerta Roja, LLC,

Hilary Sheevers, PhD.

Hilary Sheevers is a toxicology and strategic consultant to the pharmaceutical industry. She provides advice on nonclinical safety and strategic planning for drug development, gap analysis, and due diligence for in/out-licensing assets. She was previously at Janssen, Inc, founder and president of Aclairo pharmaceutical consultants, and a regulator at FDA, CDER. She currently is sole proprietor of La Puerta Roja LLC and continues to provide nonclinical worldwide safety strategy, study planning and monitoring recommendations, and regulatory interactions. She is an acknowledged worldwide expert in regulatory communications with health authorities, including simple regulatory filings to complex position papers with sophisticated scientific and regulatory discussions. Dr. Sheevers' experience includes virtually all therapeutic areas for biologics and small molecules.
