

Dr. Michael Blaze, Ph.D., B.S.
Director, Medical Writing and Publications

Dr. Michael Blaze is a Director, Medical Writing and Publications at Advyzom. Michael has over 20 years of experience in Medical Writing. Michael provides a broad range of experience with offering global medical writing services for clinical, nonclinical, commercial, and regulatory documents. He has extensive expertise in the interpretation of clinical trial data and the development of key messages to support regulatory applications and product labeling across a broad range of therapeutic areas.

Prior to joining Advyzom, Michael was a consultant for several different Global Pharmaceutical companies where he provided leadership and strategic direction in the creation and development of clinical regulatory documents. He has written submission documents in therapeutic areas including Cancer, Immunology, Cardiovascular and Neurology. He was responsible for leading the development and finalization of scientific publications, protocols, CSRs for Phase 1, 2, and 3 studies, IB updates, NDA and BLA eCTD Modules, Nonclinical reports and FDA briefing books. His previous positions included Principal Medical Writer for Forma Therapeutics and a Sr. Medical Writer for Synchrogenix and Karyopharm Therapeutics.

Michael earned his Bachelor of Science in Agriculture and Life Sciences from Cornell University in Ithaca, NY and his PhD in Biochemistry and Molecular Biology from the University of Louisville.
